Dear Parents and Guardians,

I hope everyone had a wonderful holiday! It was so nice to see all of the students refreshed and ready to jump back in to the school routine. We have a busy second half of the year with many great activities.

This year third graders are working on a new science unit called "Measuring Matter." I am really excited about this unit because it ties in so nicely with our math curriculum. We will also be documenting our science thinking and learning in science notebooks, which will be great for incorporating our literacy standards as well.

We set our January reading minutes goal for 400 minutes. If your child did not read during our January week off, he/she will have to do a little extra reading in order to meet the goal this month.

Please feel free to contact me with any comments, questions or concerns you may have regarding your child at 613-5749 or [julie.elliott@thompsonschoools.org](mailto:julie.elliott@thompsonschoools.org).

Sincerely,  
Julie Elliott
