Dear Parents/Guardians,

In the Friday Folder this week you will find your child's most recent math test. We have been working a lot with word problems over the last few weeks. As you have probably noticed, these are not simple one-step word problems. They are complex problems that require the students to read closely, make sense of the information, and then use different operations to solve. There was a wide range of scores on this assessment. Some students have a strong understanding of the concepts involved in this type of math problem, while others are still working on it. Although our last two units of the year will focus on geometry and fractions, I will continue to review two step word problems periodically when we have time class. Please review your child's test with him/her at home.

The students do not have any assigned homework over Spring Break. I hope everyone has a wonderful week!

If you have any questions or concerns, please contact me by phone or email.

Next Week in 3rd Grade:

Math: We will continue with our geometry unit. We will work on calculating area and perimeter.

Writing: Narrative writing

Reading: The students are all working on individual goals in reading.

Social Studies: We will finish our unit on how the past influenced the development of our communities today.
